Safety instructions

Please carefully read the following instructions before using this massage device to ensure its proper function and optimal effect. Please retain these instructions for use!

- This massage device complies with the recognised principles of technology and current safety regulations.
- This equipment is maintenance free. Any necessary repairs must be performed by an authorised professional. Improper use and unauthorised repairs are prohibited for safety reasons and will void the warranty.
- Never touch the power plug with wet hands.
- Please avoid the equipment coming into contact with water, high temperatures and direct sunlight.
- Be sure to unplug the equipment from the power point during extended periods of non-use to eliminate the risk of a short circuit.
- Do not use damaged plugs, cords or loose sockets. Damaged plugs or cords must be replaced by the manufacturer, service representative or qualified personnel. In the event of malfunction unplug the equipment immediately. We accept no liability for damages resulting from wrongful or improper use.
- In order to prevent excessive stress on muscles and nerves, the recommended massage time of 30 minutes should not be exceeded.
- Never use pointy or sharp objects.
- Any massage – also massage by hand – has to be avoided during pregnancy and/or in case of one or more complaints in the area of the massage: recent injuries, thrombotic illnesses, inflammations and swelling of any kind as well as cancer. Consultation of your physician is recommended prior to any treatment of afflictions and ailments.
- Do not use the device while driving.
- If you depend on electrical aids such as a pace maker, please consult your physician prior to usage in any case.

Inside the package

- Twist2Go
- Adapter
- Car adapter

Start up

Please connect the adapter with the device and subsequently plug the power plug into the power socket. Now turn on the device by the control panel.

With the car adapter the Twist2Go can also be used when travelling (not to be used when driving!). Simply plug the car adapter in the cigarette lighter.

Specials

KNEADING

Skin and muscles are either clasped and kneaded between the thumb and the index finger or with both hands. This massage technique is used in particular to ease tension.

HEATING

A deep penetrating and heat-radiating effect in which one can perfectly relax. This function is particularly beneficial for muscle tension due to the deep reaching effect.

WIRELESS

Wireless massage device.

THUMB PRESSURE

Round massageheads, based on human thumb tips, grant a very delicate massage experience.

Optional

The additional active bands not only ensure the optimal placement of the Twist2Go. They also bring further advantages: You can regulate the pressure on the affected area to your own requirements and you can enjoy your Twist2Go massage without having to look for something to lean up against.

Control panel

- [1] On / Off
Use this button in order to start the Twist2Go. The function Kneading/Shiatsu and heating starts (3 sec.). In order to turn off the Twist2Go, press the button again for three seconds.
- [2] Heating
Press this button to activate and deactivate the heating function.
- [3] Speed
Press this button to switch between 2 different speed settings.

Troubleshooting

Error	Adjustment
The massage device cannot operate even though it has been connected to the power supply.	<ul style="list-style-type: none">• Check the connection of the adapter.• The device could be overheated after prolonged use. It will automatically cool down to resume its normal condition. Please turn off the power and allow the device to cool off for 30 to 50 minutes.

Storage / Care

Regular care will extend the life of your Twist2Go whilst also ensuring safe operation at all times.

1. Recommended storage: dry, free of dust.
2. Keep liquids and open fire away from the Twist2Go.
3. Clean the equipment using a dry, soft cloth.
4. Always unplug the Twist2Go when not in use.

Conformity declaration

Corresponds to the European guidelines EMC 2014/30/EU, LVD 2014/35/EU.

Warranty conditions

The dealer grants the statutory warranty period on the product described overleaf. The warranty applies from the date of purchase. The date of purchase is demonstrated by the sales receipt.

The dealer is to repair or replace products registered within Germany which are found to be defective free of charge. Parts subject to wear and tear such as cloth covers are not covered. To assert your claim, simply return the defective product with the sales receipt before the end of the warranty period.

The warranty claim does not apply if it is established that a defect has occurred e.g. through external influence or as a result of repair or alteration not carried out by the manufacturer or an authorised dealer.

The warranty granted by the seller is limited to repair or replacement of the product. Under this warranty, the manufacturer or seller has no further liability and is not responsible for damage caused by disregard of the operating instructions and/or improper use of the product.

If inspection of the product by the seller reveals that the warranty claim relates to a defect not covered by the warranty or that the warranty period has expired, the cost of the inspection and repair are to be borne by the customer.
